—There are a number of our justices of the peace who are laboring under the impression that those elected at the recent election were chosen for four years. This is a mistake. All justices terms will expire two years hence. This is our understanding of the law.

—The course of action as to what can be done to avoid or annul the effects of the third amendment, voted on at the last general election, is "up to the lawyers of the great loan and insurance companies. So soon as they can come to some conclusion as to the best course to pursue to rid the state of the obnoxious amendment that course will be taken up."

—Ernie Flinn, second son of Mr. and Mrs. P. M. Flinn, while playing at school last Wednesday was in some manner tripped by a playmate causing him to fall on his right shoulder, hurting him severely. —The game laws of Missouri were enacted for the protection of game and they should be strictly enforced. For game of almost every kind is becoming scarcer every year. During the four years of the civil war almost every man in the state who was able to shoulder a gun was on the battle fields. The small game in Missouri was unmolested and the prairies and forest abounded with prairie chickens, turkeys, quail and squirrels; in fact, they became so numerous that they were destructive to crops and were slaughtered by the wholesale. But thirty-six years have intervened and almost every kind of game has been almost exterminated. The same is true of the wild turkey, the pigeon and the grouse.

—It is believed by a great many farmers that the pure bred poultry business is not to be attained by them, consequently they do not try to breed pure bred poultry, and by attending a poultry show we can easily see the difference there is between we bred, a try and those of no breeding at all. If we breed good birds and take them to the show, we can see how our birds compare with those of other breeders, learn their mode of making and thus improve our birds each year, and form acquaintance with the breeders of the county that will be of lasting benefit in the work of breeding poultry. If you contemplate going into the poultry business and cannot decide which variety to start, you should visit the annual show of the Holt County Poultry Association to be held in this city, December 30-31st.
